

Volunteering

What if I decide I want to adopt a pug that I am fostering?

It happens. Some foster parents fall in love with the pug(s) they foster. How could they not? If that happens, the foster parent is welcome to adopt the pug. We ask that the adoption coordinator be notified as soon as possible that there is an interest in adopting the foster pug. Once we begin working with an adopter to adopt the foster, we will not stop that process until it is complete.
